

Releasing your true potential

Who's stopping you?

There's no avoiding "us" ...

(1) Don't let your labels define you

Cerebral Palsy

Cerebral Palsy is considered a neurological disorder caused by a non-progressive brain injury or malformation that occurs while the child's brain is under development. Cerebral Palsy primarily affects body movement and muscle coordination. Though Cerebral Palsy can be defined, having Cerebral Palsy does not define the person that has the condition.

(1) Don't let your labels define you

a *DISABLED* Person

PERSON

with cerebral palsy and so much more

(2) Develop self acceptance

(3) Step out of your comfort zone

(3) Step out of Seeing what

Healthcare Costing for Value Institute Programme 2022/23

This document outlines the intentions for the Healthcare Costing for Value Institute in 2022/23. The programme has been informed by on-going member feedback and guidance from the Institute Council and Institute Costing Group.

The Institute's 2022/23 programme is built around four themes:

(3) Step out of your comfort zone

Challenge expectation

*You're doing
what !!*

Releasing your true potential
Who's stopping you?

What's in a name ...
