
What can others learn from implementing value-based healthcare in Wales?

An English perspective

Thursday 19 September 2019

Prof John Moxham | Joseph Casey |

What do we mean by value?

$$\text{Value} = \frac{\text{Outcomes that matter to patients, service users and carers}}{\text{Costs of achieving those outcomes Over the complete pathway of care}}$$

resources

Value-based healthcare is the equitable, sustainable and transparent use of the available resources to achieve better outcomes and experiences for every person.

Our mission – translate cutting-edge research and innovation into patient care, delivering **improved outcomes for patients** locally and globally

King's Health Partners

We are...

1 of 6
Academic Health Science Centres in the UK

Our partners

3 NHS Foundation Trusts

- Guy's and St Thomas'
- King's College Hospital
- South London and Maudsley

1 world-leading university for health, research and education

40,000
staff

30,000
students

Delivered through clinical academic groups – focus on integrating **mind and body** and implementing **value based healthcare**

King's Health Partners

We have...

22 Clinical Academic Groups

600
clinical trials running
at any one time

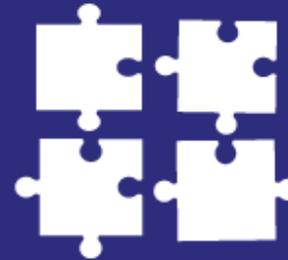

4.8 million
patient contacts per year

plans to bring together
our collective strength in
key areas to form a
number of

**Clinical Academic
Institutes &
Networks**

a patient
population of

8 million

in south London and
south east England

Learning from international experience and best practice

What can others learn from the experience in Wales from implementing value based care?

University Health Board

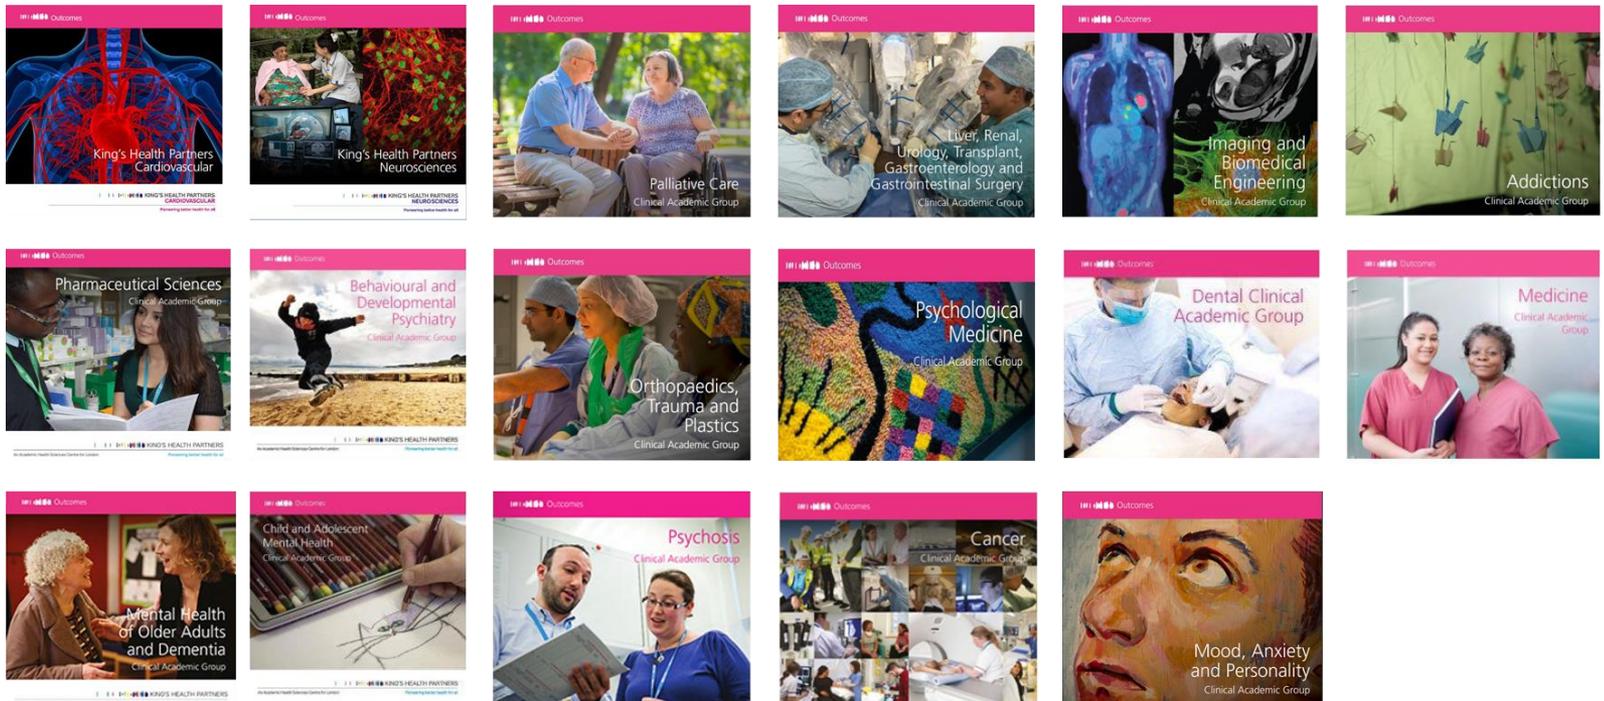

Creating a value culture by bringing together patients and professionals to focus on outcomes:

- Focus on outcomes that matter to patients and which inform care.
- Design and delivery being driven by clinical teams working across complete pathways of care.
- Engagement with patients through consistent, high-quality communication.

Creating a value culture – *focus on outcomes*

For further information: See the Economist Intelligence Unit case study: http://vbhcglobassessment.eiu.com/wp-content/uploads/sites/27/2016/11/EIU_Medtronic_CaseStudy_UK.pdf

Creating a value culture – *multi-professional teams working across complete pathways of care*

Respiratory pharmacist

GP

Practice pharmacist

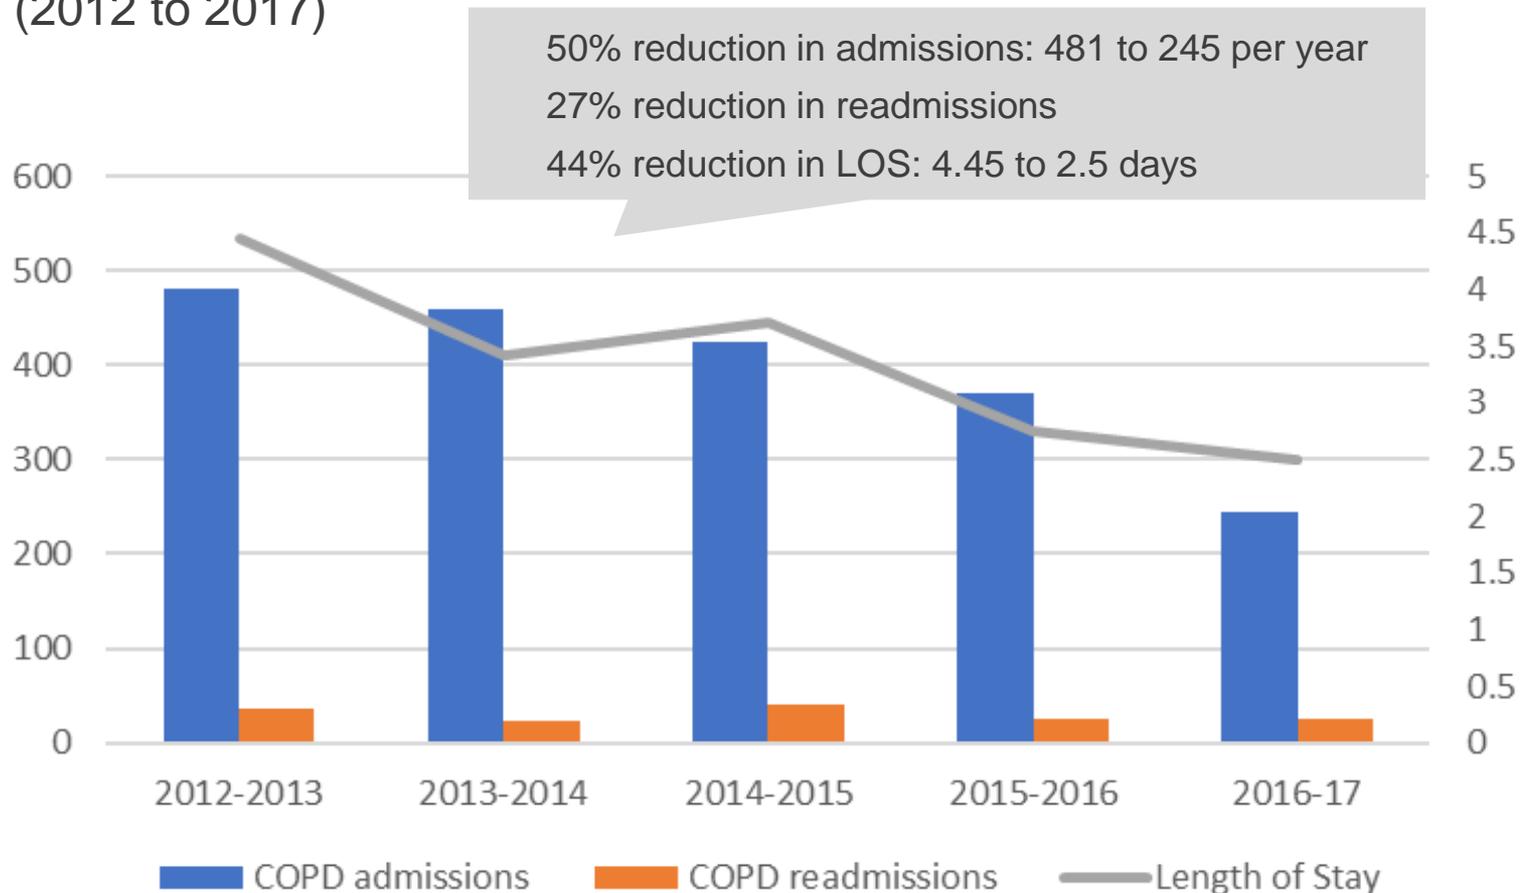

Practice nurse

Respiratory Consultant

Creating a value culture – *impact of integrated respiratory team working across pathways of care*

COPD acute admissions at King's College Hospital (Denmark Hill) (2012 to 2017)

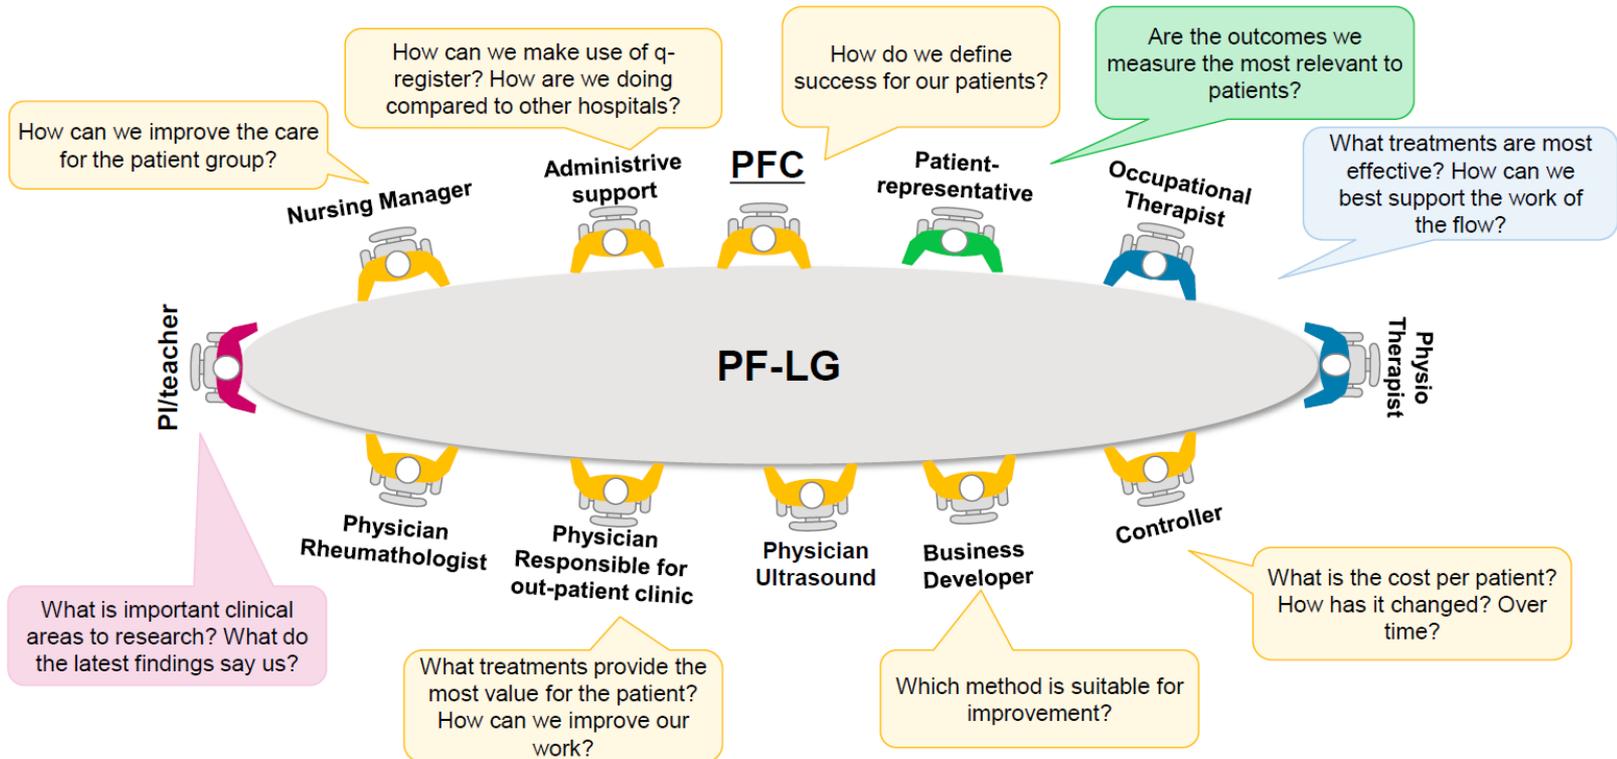

Building value capability – costing and informatics part of the core multi-professional team

Example: Rheumatoid Arthritis

Building value capability – investing in expertise, capability, and infrastructure to deliver improvements in value

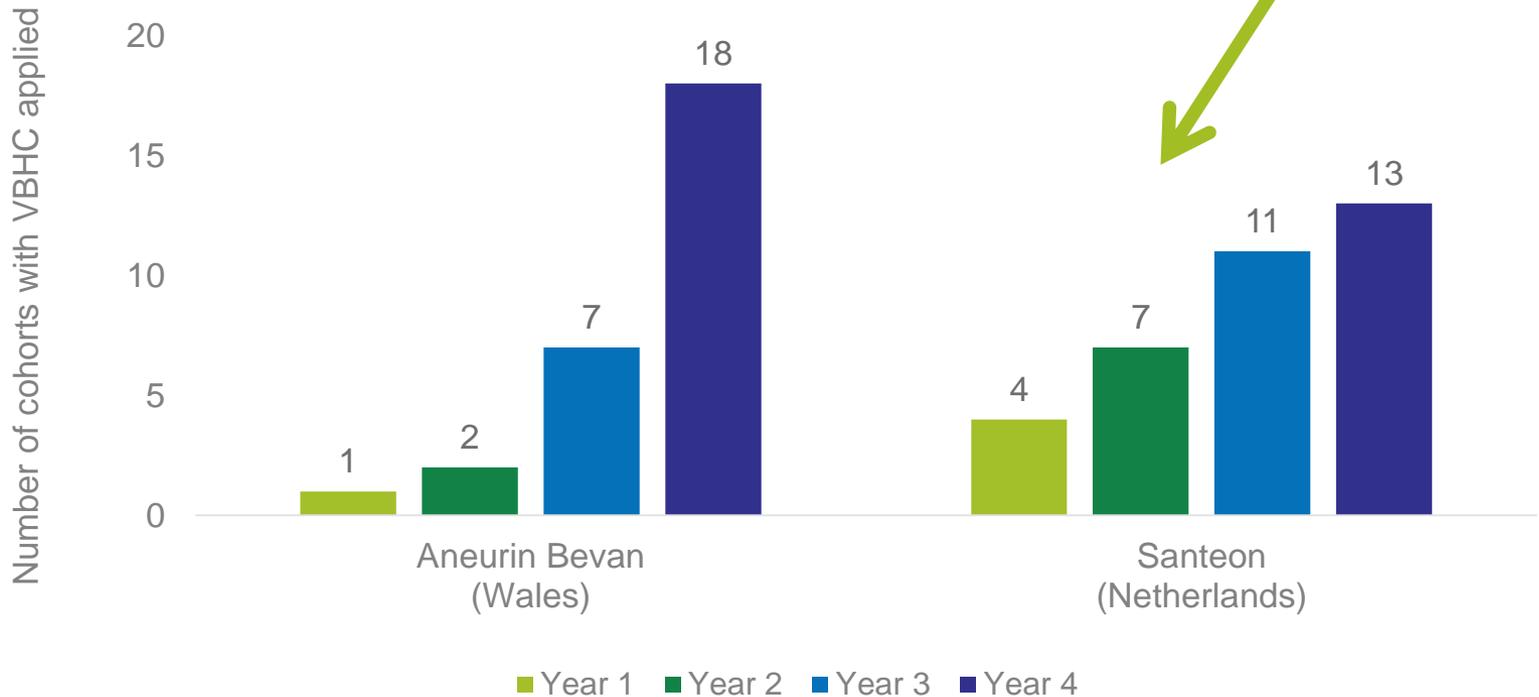

Value implementation – pragmatic approach delivering at scale

*Other internationally
leading example*

Our challenge in England – improving outcomes and reducing health inequalities

Our aim: Improve the population's health and reduce health inequalities by focusing on the Vital 5 to support prevention, detection, health promotion, management and treatment wherever there is an opportunity to do so.

Blood pressure

Obesity

Mental health

Smoking status

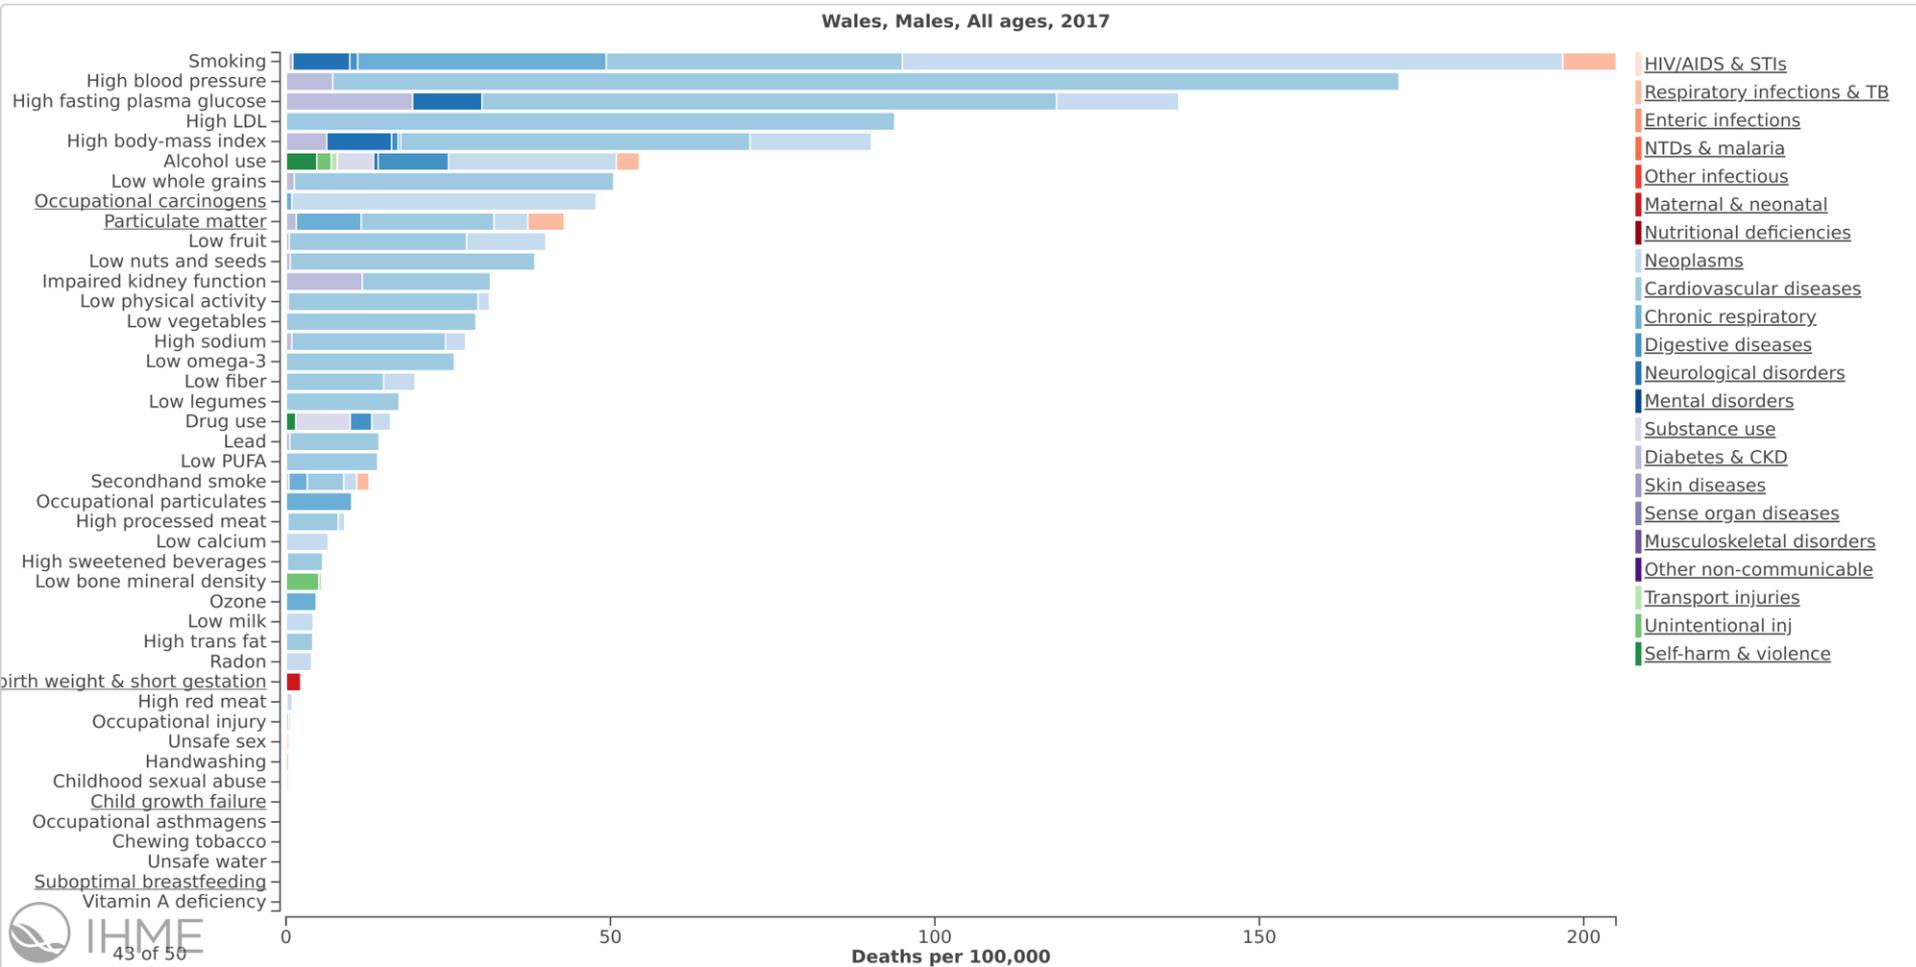

Alcohol intake

Widening our focus on value? Addressing the burden of disease in Wales | Deaths by risk factor (males, all ages, 2017)

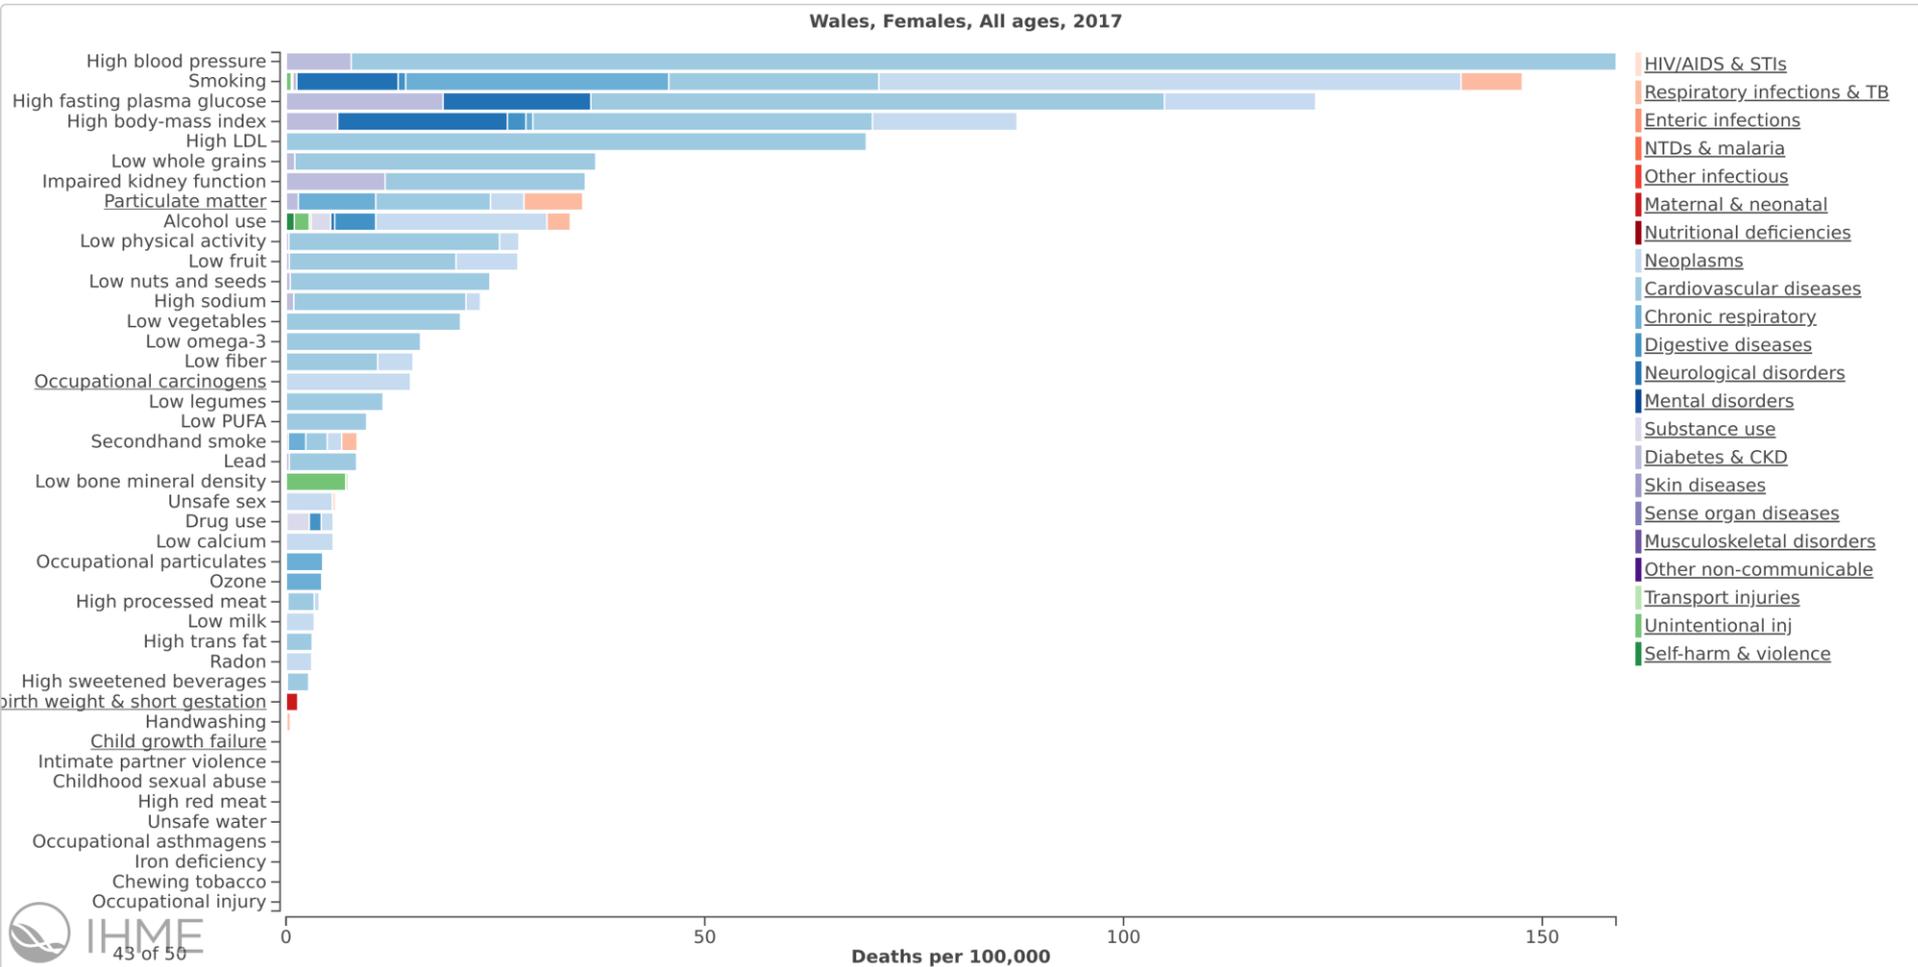

Wales, Males, All ages, 2017

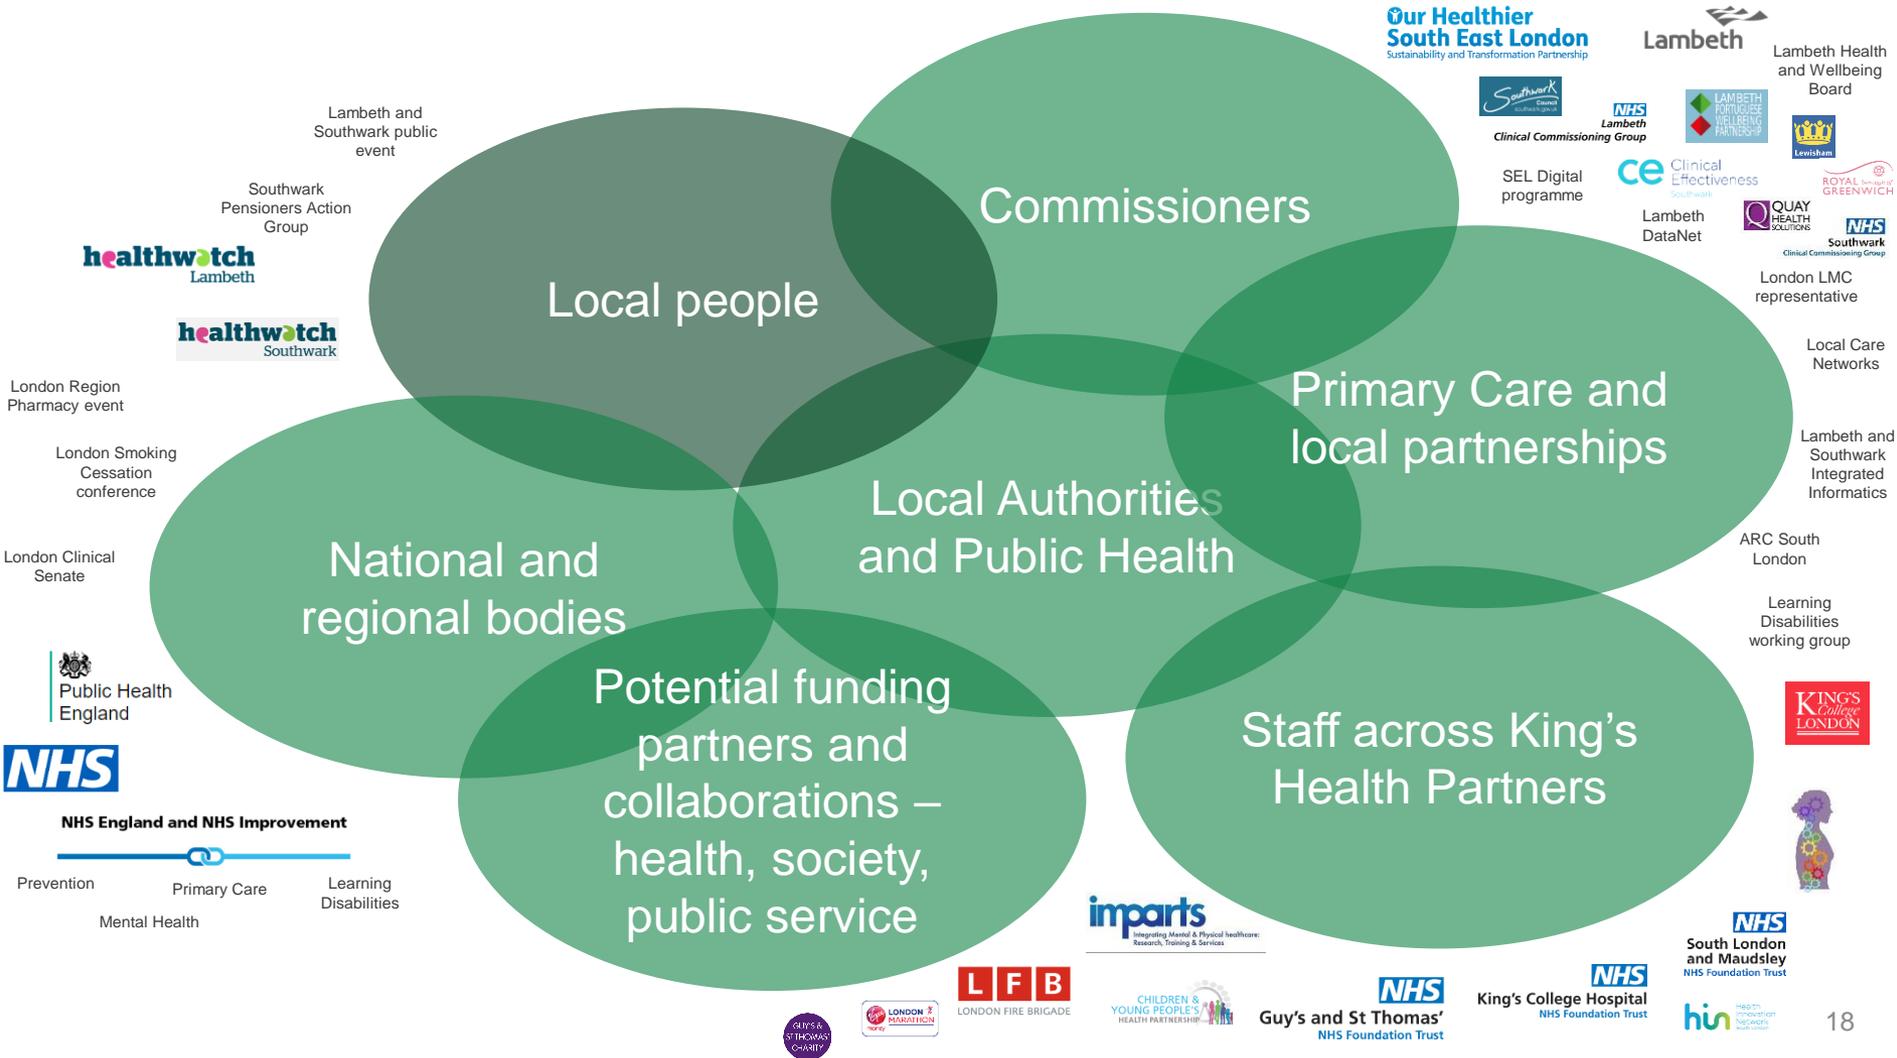

Widening our focus on value? Addressing the burden of disease in Wales | Deaths by risk factor (females, all ages, 2017)

Wales, Females, All ages, 2017

In England, we are increasingly working together across organisational boundaries – only ten years behind Wales!

“Get the right people around the table, share information, and let them get on with it”
