

## 'Charting the landscape'

### A roundtable for NHS and Local Authority Professionals

19 September  
110 Rochester Row

The transition to system wide working presents enormous opportunities and challenges for health and social care leaders as we work towards a unified system that is patient, not organisation focused. The 'Brighter Together' programme comprises four events that will increase the mutual understanding of health and social care professionals through exploring system wide challenges and priorities, applying practical approaches to analyse problems and promoting inspirational leadership through risk taking and thinking outside the box.

This roundtable will bring finance leaders across the health and social care system together to discuss and identify key issues, challenges and system wide priorities. The discussion will encourage the sharing of knowledge and experience, explore the current health and social care landscape and identify the threats, opportunities, fears and potential gains.

## Roundtable agenda

### **16.00 Pre-roundtable, coffee and networking**

### **16.30 Roundtable starts and Chair's introductions**

*John Jackson, national care & health improvement advisor finance and risks, Local Government Association and chair, Health and Social Care Board, CIPFA*

Chair raises themes of

- Working together as one system (adaptability, resilience)
- Inspirational Leadership (staff development, equity & diversity)
- Leading System Change (delivering quality service)
- Leading Finance into the Future (function growing talent and driving value)

### **16.45 Learning from each other**

A brief discussion from each member about any concerns/issues they have in their organisation for 2018/19 and what they would like to gain from today's roundtable. Please could each member come prepared to discuss for a maximum of three minutes their current financial position and at least one key issue which is keeping them awake at night.

**17.30 The impact of different pressures on personal and team performance and how to adapt at an individual and organisational level**

Each attendee will give an example of a challenge they have faced when working across sectors or with external organisations. Focusing on integration, attendees will discuss how they personally, as a team and at an organisational level have adapted to a changing environment. Please could each member come prepared with an example of these to discuss for a maximum of three minutes.

**18.15 Exploring practical techniques to build personal and organisational resilience**

The Chair will lead a discussion around organisational resilience. Attendees can share with the group how pressures in the workplace have shaped their personal resilience. Please could each member come prepared with an example to discuss for a maximum of three minutes.

**19.00 Chair's closing comments and roundtable close**

*John Jackson, national care & health improvement advisor finance and risks, Local Government Association and chair, Health and Social Care Board, CIPFA*
