across the NHS

# Finance and Procurement Skills Development Network

2020/21 programme

South West

# Development areas

HFMA work with our FSD and PSD leads to develop and provide coordinated and comprehensive training and development opportunities for finance and procurement staff in the NHS. The programme is built around a number of key development areas:

## Skills Development

A series of interactive workshops to help you enhance the practical skills required day to day.

## CPD/technical seminars

These seminars will provide you with the opportunity to develop your technical skills in specific areas and enhance your healthcare finance know-how. Note VAT training will now be available through the HFMA SW branch.

## Masterclasses

In today's challenging NHS landscape, our masterclasses are provided to support you with interpersonal, personal, management and leadership development.

## Finance for non-finance

Due to restrictions on social gatherings, in 2020 SW SDN is providing access to the collection of HFMA bitesize short courses (5 per organisation) A full list can be found below. Contact [Amy.Morgan@hfma.org.uk](mailto:Amy.Morgan@hfma.org.uk) for more information.

## Developing talent programme

A five-module leadership programme for senior finance and procurement professionals in the NHS. Now available to attend on a module by module basis subject to availability (excluding 1 & 5)

## Webinars

A selection of online and on demand webinars – ideal for when resources are tight and a day out of the office isn't viable.

## Meetings and networks

Updates, collaborative discussions and sharing of best practice from across your region.

# HFMA bitesize short courses

We have been able to provide the South West SDN (FSD/PSD) access to the collection of the HFMA bitesize short courses, as we are unable to run the introduction to NHS finance event in person. This provides 5 individuals in your organisation with access to bitesize short courses, a list of which can be found below. Each individual course is equivalent to 3 hours of accredited CPD.

Please note there are only 5 spaces per organisation available, priced at 1 credit per person. If you or a colleague would like to access the HFMA Bitesize short courses, please email [amy.morgan@hfma.org.uk](mailto:amy.morgan@hfma.org.uk) for admission.

**Please check if your organisation already has a subscription to the HFMA bitesize short courses before proceeding through SDN.**

The short courses can help your team develop their understanding of NHS finance and procurement including (but not limited to):

- NHS Finance: Gain an understanding of how the NHS in England is structured and financed
- NHS budgets: Examine how NHS budgets are prepared, used and managed
- NHS costing: Learn more about costing in the NHS and how it helps to deliver high quality services
- How NHS provider organisations are paid: Get an introduction to how money flows through the NHS and how it is used to pay for services
- Procurement in the NHS: Reflect on how NHS organisations buy goods and services
- NHS Governance
- NHS business cases
- NHS Capital Expenditure
- NHS commissioning
- NHS cost improvement programmes
- Integrated healthcare
- Internal and external audit

## Costing and value-based healthcare webinars

From 2020, organisations will now have access to the Healthcare Costing for Value Institute webinars, which cover topics such as PLICS, costing, value-based healthcare, waste and productivity. Details of the webinars will be released regularly throughout the year.

## Deputy Director of Finance Network

We are delighted to be hosting a Deputy Director of Finance Network. These meetings will provide an opportunity to hear regional updates, share best practice and network with your peers. Details of

these meetings will be released periodically throughout the year. For more information, contact [SW.SDN@hfma.org.uk](mailto:SW.SDN@hfma.org.uk)

## Coaching and mentoring

Everyone wants to progress in their chosen career and that can be easier with the support of a mentor. A HFMA mentor is a more experienced peer who is happy to share their knowledge of healthcare finance to support you. Our pool of qualified mentors are available to individual HFMA members completely free of charge. Their guidance, insight and support can help you to improve your knowledge and skills, develop a career plan and learn more about working in the field of healthcare finance. If you would like to discuss getting a mentor, please contact

[Anya.McGauley@hfma.org.uk](mailto:Anya.McGauley@hfma.org.uk).

# Future-Focused Finance

Future-Focused Finance is about improving NHS finance for everyone; recognising the need for strong financial skills and understanding across all professional groups to deliver good patient care and value for taxpayers. This national initiative has been designed to improve the quality of finance teams and financial management across the NHS. Delivery is through a range of networks, frameworks and toolkits, as well as events, workshops and other learning and development opportunities.

In 2018, the Finance Leadership Council refreshed their strategic aim and objectives. This means, with the support of the Finance Development Foundation and Skills Development Network, we're working to develop a diverse, appropriately skilled, adaptable and resilient finance function and workforce, to ensure value for money and quality services for patients.

Work is developed under five delivery themes; each is supported by committed finance leaders from among the NHS:

- Culture
- Workforce and Leadership
- Engagement and Development
- Efficiency and Value
- Adapting to System Change

## Talent Management and development opportunities through SDN and FFF

The Skills Development Network and FFF are working in together to ensure there are suitable development opportunities if you want to become a senior finance leader.

Through Skills Development you can begin your journey with the mini Developing Talent programme aimed at bands 3-5, moving onto the full Developing Talent Programme for bands 7 upwards. These are then steppingstones to move into the FFF programmes and networks which offer development opportunities for those working at Band 8B and above including programmes for new in post FD/CFOs and development programmes for existing FDs. Further information on all of the FFF programmes can be found on the [website here](#).

## FFF towards excellence

The FFF Towards Excellence accreditation system is designed to allow the NHS Finance Leadership Council (FLC) to give due recognition to those NHS organisations that have the very best finance skills development culture and practices in place. It is based on a simple self-assessment process.

There are three levels within the process. They reflect the continuous development of the organisation's finance function, with level three recognising the highest standards of financial competence and commitment to the skills development of the finance team. Level 1 will be achieved through a process of self-assessment with verification from the organisation's Finance Director. Levels 2 & 3 will require peer-assessment by colleagues from another NHS organisation. Each accreditation lasts for a period of three years and will then require reaccreditation.

For further information on the process, including the evidence schedule proformas, please visit the [FFF website](#).

# About the HFMA

The Healthcare Financial Management Association (HFMA) is the professional body for finance staff working in healthcare. For 70 years it has provided independent support and guidance to its members and the wider healthcare community.

It is a charitable organisation that promotes the highest professional standards and innovation in financial management and governance across the UK health economy through its local and national networks. The association analyses and responds to national policy and aims to exert influence in shaping the healthcare agenda. It also works with other organisations with shared aims in order to promote financial management and governance approaches that really are 'fit for purpose' and effective.

The HFMA is the biggest provider of healthcare finance and business education and training in the UK. It offers a range of qualifications in healthcare business and finance at undergraduate and postgraduate level and can provide a route to an MBA in healthcare finance. The association is also an accredited provider of continuing professional development, delivered through a range of events, e-learning and training. In 2019 the HFMA was approved as a main training provider on the Register of Apprenticeship Training Providers and will be offering and developing a range of apprenticeships aimed at healthcare staff from 2020.
