

Commissioning technical forum

2 March 2021, online event

The Covid-19 pandemic has significantly altered the way that the NHS operates. It has accelerated integrated working and has created rapid change for aspects of the financial regime, as well as creating new pressures across the health service.

This technical forum will focus on several key issues for CCGs as the NHS develops into 2021/22 and beyond. National speakers will share updates on a range of areas with a deeper technical focus on the changing contracting and payment regime. Speakers will also consider the role of CCGs in integrated care systems and the ongoing development of population health management.

Delegates will be encouraged to interact with the content online through Q&A and discussions and will be provided with CPD accredited plenary content. This event is aimed at senior finance staff within CCGs and all NHS organisations who may have an interest in the content.

Programme

09.00 **Login and networking**

09.25 **Chairs Welcome & Introduction**

Tracey Simpson, Deputy chief finance officer, NHS Tameside and Glossop Clinical Commissioning

09.30 **National update**

Adrian Snarr, director of financial control, NHS England & improvement

As the NHS comes to terms with operating in the context of Covid, Adrian will update colleagues on the key national developments that will impact commissioning in 21/22 and

beyond. As ICSs develop, there are a number of areas where changes are needed to help systems to work together, building on experience during the pandemic.

10.15 Break

10.30 Development of ICSs and the future role of commissioning

Paul Sheldon, chief finance officer, South Warwickshire CCG

During this session Paul will explore how Integrated Care Systems will develop and how commissioning will evolve in the future landscape.

11.15 Break

11.30 Payment systems & revised contract forms

Rob Unsworth, head of payment policy, **Sam Stringer**, senior payment policy manager and **Alastair Hill**, NHS standard contract team, NHS England & NHS Improvement

For this session we will discuss the potential proposed changes around the national tariff payment system and NHS Standard Contract for 2021/22 as we move out of the emergency payment and contracting arrangements which have been in place since April 2020.

12.15 Break

12.30 Population Health Management in action

James Woodland, deputy director business intelligence, **Janine Ord**, head of PHM, Dorset CCG & **Dr Simone Yule**, The Blackmore Vale Partnership

Simone is one of Dorset CCGs GP champions with her practice being involved in the first pilot waves, allowing Dorset to make evidence based decisions to improve the health and wellbeing of their population. During this time enabling multi-disciplinary working to develop innovative pathways and services. James and Simone will talk about how population health management assisted with using real time data for the population of patients and then understanding what this data means and where to redirect resources using community services.

13.15 Chairs Close

Tracey Simpson, Deputy chief finance officer, NHS Tameside and Glossop Clinical Commissioning
