Annual accounts and annual report 2019/20	09		

Introduction

The HFMA has produced this Covid-19 map which brings together the key guidance to support NHS finance and governance professionals as they respond to the current pandemic.

We are seeing an unprecedented amount of communication about the Covid-19 pandemic and it can be difficult to identify the important information.

Aimed primarily at NHS finance professionals and NHS non-executive directors and lay members, the purpose of the map is to highlight key published resources on NHS finance and governance relating to Covid-19.

The map is split into six key sections: financial arrangements; financial governance; annual accounts and annual report 2019/20; fraud prevention; workforce; and ways to keep up to date.

This map supplements HFMA's existing *NHS efficiency map* and *NHS corporate governance map*.

Much of the guidance will be relevant across the United Kingdom. However, the government's response to Covid-19 for each of the devolved nations can be found at: [Northern Ireland](#); [Scotland](#); and [Wales](#).

You can e-mail policy@hfma.org.uk with any links to further guidance that may be helpful to include.

Financial arrangements

This section includes guidance on specific changes to financial arrangements in response to Covid-19.

Links to guidance		Last updated
	Shared Business Services: Covid-19 - finance & accounting service update Frequently asked questions	Ongoing

About the HFMA

The Healthcare Financial Management Association (HFMA) is the professional body for finance staff in healthcare. For nearly 70 years, it has provided independent and objective advice to its members and the wider healthcare community. It is a charitable organisation that promotes best practice and innovation in financial management and governance across the UK health economy through its local and national networks.

The association also analyses and responds to national policy and aims to exert influence in shaping the wider healthcare agenda. It has particular interest in promoting the highest professional standards in financial management and governance and is keen to work with other organisations to promote approaches that really are 'fit for purpose' and effective.

The HFMA offers a range of qualifications in healthcare business and finance at undergraduate and postgraduate level and can provide a route to an MBA in healthcare finance. The qualifications are delivered through HFMA's Academy which was launched in 2017 and has already established strong learner and alumni networks.
